

Information

IAHAIO Pre Conference, 1st June, 2009

The conference "Better public health with pets" took place on 1st June 2009 in the Parliament Building in Stockholm. It was designed to attract primarily politicians, opinion formers, practitioners, VIP network and media. The purpose of the Pre Conference is to introduce the 2010 IAHAIO (International Association of Human-Animal Interaction Organizations) Conference on Human-Animal Interaction, to be held in Stockholm on 1-4 July 2010 and to increase media and opinion former awareness of the topics in time for the conference.

The Pre Conference was formally hosted jointly by Manimalis (Swedish RPO Association) and one of the Swedish parliamentary parties, Folkpartiet, as this made it possible to hold the conference in the Parliament building and raise the political interest. The Pre Conference was held in Swedish, however summarized in English on the web in direct connection with the conference.

Mars has maintained a long and close partnership with IAHAIO, supporting the international conferences since their launch in 1990. Mars works in close collaboration with IAHAIO through WALTHAM®, the Worlds Leading Authority on Petcare and Nutrition, providing the Science behind the brands of Mars Petcare.
